Hi David,

The conditional approval letter approving the construction of the intermediate tailings disposal facility (ITDF) was just signed, and you are approved to start working on the ITDF, as described in the revised Notice that has been reviewed and for which tentative approval was advertised to the public. Your bond is adequate for this approval.

No other parts of the revision have been or will be approved until the corrected clean copy is received and reviewed. Remember that there are conditions on the ITDF - no work is approved in the area where were identified as being recommended eligible for the NHRP.

Let me know if you have questions. Call me at 801-641-8640 if you have immediate questions. Otherwise I'll be at my desk within 45 minutes.

Peter
